

## CIM2019 CALL FOR PAPERS: MEASUREMENT, METROLOGY, R&D

The **International Metrology Congress** will be back from **24 to 26 September 2019 in Paris (France)**, in partnership with the **Measurement World** Show. This unique event is a launchpad for innovation, and a sharing platform for technical partners, industry, research centers and start-ups.

With **200 presentations and 6 round tables**, the objective of **CIM 2019** is to explore the evolution of techniques, advances in R&D, industrial best practices. All industrial fields are concerned.

### AUDIENCE

- **1000 participants**,
- **45 countries**, with 35% international participants
- **70% end-users** of measurement technology in industry and laboratories
- **30% official bodies, academics and researchers**

### TOPICS

- **R&D and Prospects**: data qualification, analysis and security, advanced manufacturing, predictive maintenance, industrial IOT, energy efficiency, health diagnosis, quantum technology, AI...
- **Processes**: uncertainties, traceability, cost optimisation, ISO/CEI 17025 and risks management ...
- **Techniques and best practices**: mass, force, flow, pressure, dimension, electricity, time-frequency, temperature, optics, chemical and biological measurements...

The CIM 2019 is organised by the *Collège Français de Métrologie* with the support of:

BEA METROLOGIE, BIPM, BOSCH, CETIAT, CETIM, COFRAC, DIGIPLANT CONSULTING, EA, EURAMET, IMPLEX, PTB (DE), STIL, TRESICAL, LNE, OIML, NPL (GB), NCSLI (US), PSA GROUP, SPF ECONOMIE (BE), UNIVERSITY OF BURGUNDY.

The call for papers is open until 15 January 2019.

Visit [www.cim2019.com](http://www.cim2019.com) to send your abstract.
